About This Game

Everything is an interactive experience where every object in the Universe is a playable character - from animals to planets to galaxies and beyond. Travel between outer and inner space, and explore a vast, interconnected universe of things without enforced goals, scores, or tasks to complete. Everything is a procedural, AI-driven simulation of the systems of nature, seen from the points of view of everything in the Universe.

Learn to transform yourself to create worlds within worlds within worlds, or let go any time to allow Everything to take over and produce a never ending documentary about the world you live in. Narrated by the inspiring philosophy of Alan Watts, and featuring a rich score from composer Ben Lukas Boysen, Everything will give you a new perspective on life.

English

A young demon who seeks revenge, and has a long history with Void Dark. He doesn't like teaming up. He seems very cold, but his kindness shines through when he helps those who are suffering because of the Loot. His calorie intake is very high, and he eats whenever he has the opportunity.

Comment by Takehito Harada
A demon with the blood of a dragon, who wears scale-like clothing. His fighting style includes slashing, so I kept him sleek, but with muscles. Also, I didn't forget about the main character qualities.

Comment by Sohei Niiikawa
I wanted the main character of 5 to be really cool. If it's a hot blooded character, then it'll overlap with 2's Adell, so I went the direction of making a "cool" character, like the blue ranger from a certain rental series, and even got the voice actor, Mamoru Miyano. He's normally cool, but he's hot blooded on the inside. How attractive.

The Princess Overlord of Gorgeous, which is the richest nation in all the Three Worlds (Netherworlds, Celestia, and Human World). She truly believes all men exist to kneel before her. She ran away from home because her father arranged a marriage of convenience with Void Dark, who she now plans to assassinate.

Seraphina

Comment by Takehito Harada
I made her look like a modern Succubus, so she looks very hip and flashy. She charms men with her friendly and soft looks. How scary.

Comment by Sohei Niiikawa
I was particular about how much she is able to maintain her Overlord image while bringing out her charm and fun. I did my best to make sure she wouldn't come across as a mean character, and I put a love of love into her so that she can be a very prideful, cool character.

I got this game on sale for about \$3, good price!

Not gonna go real' in-depth here.

If you enjoy relaxation games like Abzu, Viridi, Mountain, etc., I'm assured that you would also enjoy this one.

If you dabble in philosophy here and there, it's got some of that, too, just a little bonus, and the audio clips are optional. This game can either enhance or relieve your inner existential-crisis, if you experience that.

I also think if you enjoy walking\flying\swimming\etc. simulation and exploration games, you'd really love it.

:^) Very nice for me to relax... And for meditation.. I liked how you could literally be anything. From microscopic to a whole damn UNIVURSE! But i'm refunding this because it was not what i expected. I really like this game, i would have bought it anyway> But i'm looking for an experience that is more on the story rich side like The Beginners Guide.. This is a piece of artwork, and artwork is subjective. That said, the visuals are bad and the controls are bad. It isn't worth \$15, so buy it on discount if you want to try it out. I have to give this a no, just because it doesn't deserve a 80+ % rating.. A meditative experience. Alan Watts would dig this.. Everything is a contemplative game. It's a space to meditate and nudge you to think about your place in the universe, or, more accurately, your place as the universe. It's not a button masher by any means, but Everything gave me a little more perspective on life than I had before, and that's pretty rare for a Steam purchase.. Do you explore Everything? Or does Everything explore you? Nietzsche to see you, to see you Nietzsche.
